In alignment with the CDC recommendations, we've indefinitely suspended all club programming including games, training, and events. Given the rapidly evolving nature of the situation, we are working to providing members with weekly updates on the status of club programming as we continue to gain more information. What is Chicago Fire Juniors providing during this period for our members?

Chicago Fire Juniors (CFJ) are working with the Chicago Fire FC, Chicago Fire Academy, and outside groups to provide a variety of e-learning and training opportunities to keep our players active during this time. One of these offerings is the launch of the TopTekkers App for CFJ players. Additional off-the-field educational opportunities will be announced next week.

TopTekkers is designed to be the ultimate training aid for young soccer players. With hundreds of informative videos designed to teach players the correct techniques, alongside simulations which encourage practice and competition. Find out more information on TopTekkers [HERE](#).

Parents of CFJ City, CFJ South and CFJ West players will receive an email from TopTekkers with details for next steps.

How will Chicago Fire Juniors be making up for programming affected by the club's response to COVID-19?

As this is a rapidly evolving situation, we are working with all parties to determine the best course of action to provide options for members of CFJ City, CFJ South and CFJ West. Our immediate goal is to provide e-learning and at-home training opportunities to replace on-field training. Long-term we are considering all financial and programming options to make-up for the lost programming. We will share updates on these decisions in due course.
